MEMORANDUM FOR: Deputy Director for Intelligence
FROM: Director of Central Intelligence
SUBJECT: CIA Working Paper - Production

1. This is a Comptroller's view of what we have been able to accomplish in addressing the shortfalls with the additional resource support that has been provided us. As you will see, the additional effort we put on new and priority targets far exceeds the additional support.

2. What we need to have ready before the HPSCI markup sometime next week or the week after is an explanation of how this miracle of the loaves and the fishes was accomplished, how well we have done in finding people, in stretching our resources, and what still needs to be done.

William J. Casey
